## CREATE A NODE RED SERVICE

The screenshot displays the IBM Cloud console interface for a service named "Node RED BAMNX 2022-11-15". The service is in a "Running" state. The left sidebar shows navigation options: Overview (selected), Runtime, Connections, Logs, API Management, and Autoscaling. The main content area includes a warning banner about IBM Cloud Foundry Public being deprecated. Below this, the "Instances" section shows a health status of 100% and 1/1 instance(s) running. A slider for "MB memory per instance" is set to 256. The "Runtime" section shows a Node.js runtime with a 256 MB total allocation, with 1.75 GB still available. The "Connections" section shows 1 connection. The bottom status bar indicates the time as 8:51 PM on 11/18/2022.
